Welcome to TayCare Children's Centres!

The Organization

TayCare Children's Centres are operated by Tayside Community Residential & Support Options (TCO). TCO is a private, charitable, non-profit corporation that provides a range of housing and support services to the Perth community. These include housing and supports for persons with developmental/physical handicaps, geared-to-income housing, and child care.

TCO was first established in the summer of 1988. It has an eleven-member Board of Directors, volunteers from the Perth community who set policy and direction for the organization. There is an Executive Director who manages the day-to-day operation and, in the case of the Children's Centres, a Child Care Supervisor is responsible for managing each location. The Board seeks advice from staff and parents through a Child Care Committee that meets regularly to discuss issues of importance to the programs.

The Programs

TayCare Children's Centres offer a range of affordable and accessible services which address the physical, social, emotional, developmental and intellectual needs of children between the ages of birth to 12 years. All our centre's also have high quality learning, and caring programs that include all children and removes and barriers that prevent children from actively participation in all our programs. All staff, board members, and support agencies will strive to meet your child's diverse needs. Working in collaboration with the Lanark County Early Integration Program, the Centres serve children with special needs.

Programming is based on the children's interests and events happening in their lives. The educators plan activities to enhance and expand on what the children are expressing, supported by the pedagogy set out by the Ministry of Education and How Learning Happens.. Activities and experiences are written on a white board outside each room. Daily programming includes active and quiet times and indoor and outdoor play. From time to time groups of children will be taking neighbourhood walks or rides in the stroller or bye-bye buggy.

Programs are reviewed annually to ensure that program activities continue to provide care and guidance which enhance the development of each child.

We are licensed under the Ministry of Education and follow the regulations of Child Care and Early Years Act.

Our programs are offered at five locations:

TayCare Junior Children's Centre located adjacent to St. John's Catholic High School on the Scotch Line offers care for children of age for Infants Toddlers and Preschool children.

TayCare Wilson Children's Centre at 100 Wilson Street East offers full day care for toddlers and preschool children.

TayCare Stewart Program held at The Stewart School offers a Before and After School program.

TayCare St. John's Program held at St. John's Elementary School offers care for Before and After School.

TayCare Queen Elizabeth Program held at Queen Elizabeth School offer care for Before and After School.

The Centres are open from 6:30 a.m. to 6:00 p.m. Monday to Friday throughout the year with the exception of the following statutory holidays: New Year's Day, Family Day, Good Friday, Victoria Day, Canada Day, Civic Holiday, Labour Day, Thanksgiving Day, Christmas Day and Boxing Day.

Philosophy

TayCare Children's Centres provide safe, caring environments for young children which foster independence, self-awareness, awareness of the child's environment and the growth of self-esteem. We provide a relaxed but stimulating program. We encourage communication and problem solving and promotes the healthy development of each child. We work closely with others in the community to ensure that there is a continuity and holistic approach to child care services offered to families.

Staff

Early Childhood Educators are selected because of their caregiving skills and their specialized knowledge and experience in child guidance in accordance with the Child Care and Early Years Act and Regulations. Professional staff, at the Centres, have a Diploma in Early Childhood Education, or are working toward their diploma. Workshops, seminars, and conferences are attended each year to keep up-to-date and to further professional knowledge and caregiving skills. All ECE staff are members of the College of Early Childhood Educators.

The Centre has a Child Care Supervisor responsible for administering the program. All staff are aware of the important role that you, as the parent, play in making the child care experience a valuable and enjoyable one for your child. We want to maintain open communication with you. Please keep in touch with us regarding your child's needs and any significant changes or events in his/her life. We will be sure you are aware of your child's progress, happenings at the Centres, and any incidents involving your child.

Volunteers/Students

From time to time the Centres welcome volunteers and students from the community to work for periods of time. They assist staff with activities and general housekeeping. All volunteers/ students are interviewed, screened and given an orientation. They are asked to sign a confidentiality form and provide evidence that they are free of communicable diseases and have up to date immunizations. They are assigned specific duties which are carried out under the supervision of qualified staff.

No child will be supervised by a person under the age of 18 years of age. Direct unsupervised access (i.e. when an adult is alone with a child) is not permitted for people who are not employees of the centre.

The Centres also provide placement opportunities for students in the Co-op and Family Studies Programs at the local high schools, as well as St. Lawrence and Algonquin College Early Childhood Education students.

Admission

Children are admitted on a first come, first served basis. A current waiting list is maintained to fill vacancies as they occur.

Preference will be given to children requiring full-time child care.

Children may be admitted on a part-time basis. When a schedule cannot be provided one month in advance, the child will be accepted only if space is available on a given day.

A two-week trial period will precede full-time enrolment. Continued enrolment is at the discretion of the Child Care Supervisor

Waitlist Policy

TayCare Children's Centres are committed to enrolling children into our programs as soon as possible. When space is not available the child will be placed on our waiting list. Families are placed on the waiting list in the order in which they call. There will be no charge to the families to be placed on our waiting list.

Parents may call at any time to inquire where they are on the waiting list. When a parent calls to enquire about where they are on the waiting list they will be told what number they are for the program they are requesting and also told that this may not be an accurate number as some families change their mind and do not always call us to let us know.

When a space becomes available every attempt will be made to accommodate the family at the top of the list. If there are two families, wanting part time care, that can fill a fulltime spot this will be done. When a family is called and a voice mail must be left they are given 2 days in which to return the call. If, at that time, we do not hear from them a second call will be made and a message left. They will be given a date by which they must return our call. If there is no call back we will presume they no longer wish to enrol their child. We will continue down the list until the vacant space is filled.

Preference will be given to a family that currently has a child/children enrolled in one of our programs provided that their account is in good standing. If there is an outstanding balance owing the family would be told that it will affect the ability of us enrolling another sibling into one of our programs. Extreme circumstances will be taken into consideration. (ie a family with young triplets that need subsidy and would not be able to get care at a private sitter)

There is no preference given to subsidized families vs. full fee families. Families can check on their place on the waiting list by calling the child care supervisor.

Registration & Orientation

At the time of registration, you and your child will come in for an interview with the supervisor. At this time if your child is comfortable they may choose to visit with the children, in their appropriate age group, while you fill in paper work with the Supervisor. After all pertinent forms are filled in, you and your child will have a tour of the facility. The parent and supervisor will discuss a time frame for you and your child to have visits with your child's new program and teachers, prior to full time enrolment as part of the orientation process.

Demission

Although TayCare Children's Centres are committed to the children in its care, there may be occasion when the level of staffing or the program is unsuited to meet the needs of an individual child. In such a case, and only after consultation with the parents and reasonable efforts to modify the child's program, TayCare Children's Centres reserve the right to demit that child from the program.

Children Belongings

Please supply the following articles for your child: toothbrush, indoor and outdoor shoes or slippers, blanket, soft stuffed toy for sleeping, a complete change of clothes, two weeks' supply of disposable diapers, and wipes where necessary.

Please put your child's name on as many things as possible.

Health

Immunizations

An up-to-date record of immunization is required upon admission for each child unless the child is also registered in a school program with the public or separate school board.

A parent may decide for sincerely held religious or conscience reasons not to have the child immunized. If so, s/he must sign an affidavit to that effect and be aware that the child may be excluded from a program if there is an outbreak or risk of outbreak of specific diseases.

Illness

The children's health is extremely important to us. With their immune systems still undeveloped, we must be very careful about allowing a sick child into the Centre. Children in group settings come in contact with many children, so they have a much greater chance of getting an infection from other children. Children also share toys with each other during play and this spreads germs. Furthermore, some children have not learned to use the toilet properly, or the importance of hand washing, so they need a great deal of "hands-on" care.

Since parents feel differently about whether a child is sick enough to stay home, the following guidelines will help make this decision.

A child should remain home if s/he:

- has diarrhea; (must be free from diarrhea for 48 hours before returning)
 - has a fever;
 - is vomiting;
 - has a very congested cough;
 - complains of a bad headache or sore throat;
 - has a contagious disease or illness, i.e. chicken pox, impetigo, ringworm;

- has pink eye; (medicated for 24 hours and no discharge)
 - is unable, due to the illness, to participate in regular program activities.

A child may be sent home by any staff member on arrival or during the day due to illness.

The daycare has a responsibility to report any outbreaks of chicken pox, severe outbreaks of diarrhea etc. to the health unit.

We stress the importance of arranging for a "backup" caregiver for those days when your child is not well enough to attend the child care centre.

If your child has been absent due to an infectious disease, a doctor's certificate may be required the day your child returns.

Medications

No medication can be administered that has not been prescribed by a doctor. The bottle must be in the original container and have the pharmacist's label on it with all the necessary information for administering the drug. The medication cannot be expired. Parents must sign a consent form for the medication to be administered.

Sunscreen

The daycare provides sunscreen. To avoid having a bottle of sunscreen for each child, we purchase sunscreen. If your child has sensitive skin to some lotions, you may feel free to provide your own. A consent form giving staff permission to apply sunscreen will be signed at the time of enrolment

Reporting Health Issues

Please report any significant changes regarding your child's health or situations in their life, i.e. deaths, separations, parent illness, etc. that might affect your child's behaviour. This will help us to help your child deal with related problems.

Rest Time

All children who are 4 years of age and under are required to have a rest/quiet time in accordance with the Child Care and Early Years Act. Rest time is to be a minimum of ½ hour of rest. Children are not required to sleep but will be laying down for a quiet rest. After a short rest time they will be allowed to get up to play. The children's need for a midday rest is our first priority.

Special Health Conditions

We will also need to know about special health problems or special diets, e.g. allergies, diabetes, regular medications, etc. In order to treat your child appropriately, we may request copies of doctors' reports and/or orders and other information you may have about your child's condition. In cases where the staff requires training to deal with specific treatment, the child will only be admitted or readmitted once the training has been completed.

Serious Occurrences

The Safety and well-being of our children is our highest priority. As required by the Child Care and Early Years Act our child care centres will post information about serious occurrences that happen in our centres in a visible area for 10 days. The child's name involved will not be posted.

A serious occurrence could include:

- Life threatening injury to a child,
- Fire or other disaster on site,
- A child left unsupervised for an extended period of time

Child care centres are required to report serious occurrences to the Ministry of Education, which is responsible for child care licensing.

Emergency Management

TayCare has emergency policies and procedures. Should an emergency situation occur parents will be contacted as to what the situation is and where they are to pick up their child/children.

Special Diets

From time to time we have children enrolled in our programs with severe food allergies. For this reason, families are not allowed to bring and food into the centres with the exception of special Family Gatherings.

Breakfast Program

Unless a child is having to bring food in because of a special diet, we do not allow any food coming from outside of the daycare. Food allergies are a big concern for many of our children so we have to be very vigilant. We provide a breakfast program for children who just can't eat first thing in the morning. For .50 cents we will provided your child with milk, juice, toast or cereal. We serve Breakfast up to 8:00 a.m. each day.

All allergies are posted in all rooms in the day care and all anaphylactic allergies are posted so staff are aware at all times of all the special needs of the children.

Parent Involvement

We have an open door policy for parents and parental visits are encouraged.

If you have special skills or knowledge to share with us, we may ask you to participate in the program. Parents can be a great resource for ideas and activities.

We encourage parents to give instructive criticism, ask questions, and also to give us positive feedback.

Please note: The staff's first responsibility is their awareness of the children in the program. Therefore, opportunities to chat at arrival and departure time may be limited. If you wish, you may arrange for a convenient time to chat later on or you may wish to leave a note for the staff.

Arrival and Pick-up

Young children depend upon regular routines for their own sense of security. We recommend that you establish fixed hours to pick up and drop off your child.

Parents are responsible for the transportation of their child to and from the Centre.

Children are to be accompanied into the Centre and a teacher notified of their arrival. You are responsible for your child up until the teacher has been notified of his/her arrival.

Parents are responsible at all times for any children not registered in the programs, eg. siblings, friends, that they bring with them to the Centre.

Please notify the Centre if your child will be absent.

Regular contact with the parents is very important. Please take the time to speak with staff about your child's day.

Parents must inform staff when anyone other than themselves will be picking up their child. If the person is unknown to the staff, she/he will be asked for identification. In the case of separated parents, the Children's Centre is responsible to the parent who enrolls the child, and will follow that parent's wishes as to who picks up their child. Please submit a copy of custody papers if there is a legal agreement between parents. If an unauthorized person tries to pick up the child, the following steps will be taken:

1. The child will be kept with another staff member while the parent is being contacted.
2. If the parent cannot be reached, the child will be kept at the Centre until the parent can be reached for confirmation.
3. If the parent does not give confirmation, the person trying to pick up the child will be asked to leave the Centre.
4. The police will be called for support if necessary.

Out of concern for the children in our care, if a staff member suspects that a parent or other authorized person picking up a child is impaired, eg. alcohol, drugs, the following steps will be taken:

1. Staff will advise the person of their concern and encourage him/her to arrange alternative transportation for him/herself and the child.
2. If the person refuses and leaves with the child, staff will contact the police and advise them of the situation.

Please be reminded that the Centre closes at 6:00 p.m. and you are encouraged to pick up your child by 5:45 p.m. in order that staff can complete clean-up by 6:00 p.m. If you are detained beyond 5:45 p.m., please call to notify as to arrangements you have made.

Upon pick up, you are responsible for your child once you have made contact with him/her.

There is a LATE PICK-UP FEE for children left at the Centre past 6:00 p.m. The charge is \$15.00 for every 15 minutes, or portion of 15 minutes, past 6:00 p.m. This money is paid directly to the staff kept late.

There will be a non-income tax receipt given at the time of payment.

Field Trips

We, from time to time, take the children off of the premises for walks. We will ask parent's permission for any walks that will be off of the School property. Such trips may include going to the splash pad at Conlon Farm or to the local Fire Station.

Supervision

TayCare Children's Centres believe that the teachers, volunteers and students need definite, consistent guidelines for working with children in a positive manner.

Positive behaviour management helps children build self-control, self-confidence and self-esteem; an "o.k." feeling about themselves. Many adult-child relationships in the past were ones of dominance and submission. Today, equality and respect are the most important elements of behaviour management.

The Children's Centre can be an important source of strength to families by providing ways to handle stress, conflict and crisis. Children and parents who see and hear positive actions and communication and cooperation modelled by teachers in their interactions with children, parents and co-workers will have a more positive attitude.

Prohibited Practices

The following forms of practices shall not be permitted by anyone including staff, students, volunteers and parents during the operation of the program:

- Corporal punishment of the child;
- Physical restraint of the child, such as confining the child to a high chair, car seat, stroller or other device for the purposes of discipline or in lieu of supervision, unless the physical restraint is for the purpose of preventing a child from hurting himself, herself or someone else, and is used only as a last resort and only until the risk of injury is no longer imminent;
- Locking the exits of the child care centre for the purpose of confining the child, or confining the child in an area or room without adult supervision, unless such confinement occurs during an emergency and is required as part of the licensee's emergency management policies and procedures;
- Use of harsh or degrading measures or threats or use of derogatory language directed at or used in the presence of a child that would humiliate, shame or frighten the child or undermine his or her self-respect, dignity or self-worth;

- Depriving the child of basic needs including food, drink, shelter, sleep, toilet use, clothing or bedding; or
- Inflicting any bodily harm on children including making children eat or drink against their will.

Contravention of Prohibited Practices

Everyone including educators, students, volunteers and parents are expected to comply with the program's stated policies and procedures and the requirements of the Child Care and Early Years Act. Failure to comply could result in disciplinary actions for staff and students and volunteers. Parents would be asked to leave the centre, and a report will be made to CAS and/or police.

Where action is necessary, it will be taken as soon as possible by the Supervisor in the case of the staff, students, volunteers, parents and others, and by the Executive Director in the case of the Supervisor.

Review and Sign Off

The prohibited practices will be reviewed prior to working with children for the first time and at least annually thereafter with each staff, student and volunteer. After reviewing the policies and procedures, each person must sign and date the policy.

Child Abuse

Staff have received training regarding the observation of signs and symptoms of abuse. We are required by law to report any occurrences of suspected child abuse to the Children's Aid Society, Lanark County.

Confidentiality

Information collected from parents/guardians is for the use of Centre staff only, and is of the type to aid in providing appropriate and adequate child care. Information is kept in confidence and only released with consent of parent/guardian. All children's records are the property of TayCare Children's Centres. They are maintained in a locked cabinet. Parents/guardians have access to the child's records when requested. The Ministry of Education Program Advisors have authority to review children's information to assess compliance with the Child Care and Early Years Act.

Parents are encouraged to follow the same guidelines as Centre staff and not share any personal information they may have about other children or families or staff that they have contact with in the Centres.

Concerns

Complaints can be received by any employee or Board member from any person or family member receiving service as well as a member of the general public. We encourage you to first address your concern to the Supervisor of your child's program.

A complaint/concern will be responded to in a timely manner by the person most appropriate to deal with the issue. You can expect to hear from us within 24 hours of your initial complaint. Then allow a 7 day follow up on how we will deal with your issue. We will investigate any concern, and meet with all who maybe concerned. If it is a serious complaint it will be reported to the Ministry of Education and CAS if required. If you are not satisfied with the response, you can call the Executive Director at 264-0953.

If you have already taken this step and are still not satisfied, you can write or call the Chair of the Board. The name and address of the current Chair can be obtained by calling the main office at 264-0953. You may be asked to put your concern in writing so that the Board has the information it needs to respond appropriately. You may also contact The Ministry of Education, at 1-800-510-5333 for any licensing related concerns if these have not been adequately addressed at the Board level.

Fees

Fees are set by the Board of Tayside Community Residential & Support Options on the recommendation of the Child Care Committee. The current fee schedule is available from your Child Care Supervisor and is attached to the end of this handbook.

As fees are based on the yearly expenses of the Centres, you are required to pay for all the days your child is registered including days when s/he is away due to illness or holidays.

Statutory holidays will be included in your monthly invoice if your child usually attends on the day of the week on which the statutory holiday falls.

You will be given a receipt for fees paid annually. This receipt can be used on your income tax return, according to the amount allowed by the federal government.

Subsidized rates are determined by a needs assessment completed by Lanark County Social Services. The Child Care Supervisor can provide a contact person and number for those families wishing to apply for subsidy. Subsidized families will be charged for any absent days that exceed the number of absent days allocated by the subsidy office.

Fees are paid by automatic withdrawal from each family's bank account. The withdrawals are done on a bi-weekly basis and are in advance. Parents will be given a statement at the beginning of each month letting them know how much will be withdrawn. Each family will be asked to fill out a withdrawal form stating the amount Tayside Community Options may withdraw from their account.

If funds are not available in the bank account the following actions will be taken.

1. A reminder will be sent by the Supervisor requesting payment by a certain date.
2. If there is no response, a second notice will go out from the main office requesting payment or arrangements for payment to be made within one week.
3. If there is still no response the child will be demitted from the program and the account referred to a collection agency.
4. If a child has left the Centre and there is an outstanding account, the first two steps will be taken. If there is no response, the account will be referred to a collection agency.

There is a \$2.50 charge for NSF accounts. This amount is to be paid separately from the fees owing.

Withdrawal

A two-week notice upon withdrawing your child is required. Fees for those two weeks will be charged to the parent if the notice is not given. You will be asked to fill out a withdrawal notice form.

Smoking

All of our locations are smoke free. There is to be no smoking anywhere on the property of any of our programs that are located on a school property. At our program at 100 Wilson St. E there is to be no smoking anywhere in the building, within 9 metres of any door or in the playground.

Closures

There may be occasions when either because of mechanical failure, building evacuation or severe weather conditions we are forced to close the Centre, In any case the following are our ways that you may be alerted to the closure.

Early morning closure-severe weather- this will be announced on Lake 88.1 FM. Be sure to listen to one of these stations if weather inclement, you will not receive a personal call to let you know.

Early morning Closure-mechanical failure- we will make every attempt to contact you before you leave home, we will announce the closure on the above mentioned radio stations and we will post a sign on the Centre door.

Mid Day Closure for any reason- you will be contacted and asked to pick up your child as soon as possible. You will be told of the alternate location to pick up your child if the Centre is closed before you can arrive.

Please be sure that Centre has an up to date phone number where you and/or your emergency contact can be reached.

We also remind you that it is very important to have alternative arrangement for emergencies in place.

Please understand that we understand your reliance on child care and we do not take the decision to close the Centre lightly. We do so only in the best interests of your child.

We hope you and your child enjoy your time with TayCare Children's Centre.

TayCare Junior Children's Centre

Program Statement

TayCare Children's Centres are dedicated to the children's learning, development, health and well-being supported by responsive Early Childhood Educators. We focus on the active learning, exploration, play and inquiry. All of our Educators see children as competent, capable, curious and rich in potential, and are active participants in all aspects of the program as well as their families. All Educators see themselves as co-learners with the children in the program and the environment as the third teacher.

Our program follows the philosophy, pedagogy, reflective practice and collaborative inquiring set out in the How Does Learning Happen document.

Our goals for the children are consistent with the Ministry of Education's pedagogy.

- a) We promote health, safety, nutrition and the well-being of all children in our care. All of our equipment is kept in a state of good repair and all indoor toys are sanitized when being replaced with different toys. A full course hot lunch and a morning and afternoon snack are provided to all of our children attending a full or half day program. Our menus are reviewed to ensure that we are serving the children the proper amount of foods from the various foods groups as set out in the Canada Food Guide. All of our educators are required to have an up to date Infant and Child 1st Aid and CPR certificate.

To establish a pattern of healthy eating, physical activity and sleep in early childhood that will carry over in later life.

Goal- To promote nutrition and encourage children to enjoy a variety of food. Approach- To make meal time a social and relaxed positive experience.

- b) It is our intent of all of our educators to interact with everyone that enters our child care programs with respect. Our interactions with our children, families, co-workers, community and child care partners are positive, supportive and responsive.

Goal- Every parent, guardian and child will be greeted upon arrival at both pick-up and drop off.
Approach- Make a chart, as a helpful reminder, of the parents first names for each attendance binder to of names.

- c) Our educators encourage all children to be respectful of others and assist them in learning how to deal with conflict and problem solving with others in their environment. Goal- Our educators will use the words that will help the child in dealing with conflict issue, supporting the child's ability to self-regulate.

Approach- Give the children the words to deal with a situation then step back and observe, allowing them to use the skills they are learning.

- d) The educators are always observing the children's play and looking for ways to foster their interests. The children are encouraged to express their particular interests and the educators will help them develop these interests through their own experiences and various mediums.

Goal- Sit back and simply observe what the children are playing with and are interested in.

Approach- Educators will add appropriate equipment/materials to enhance what the children are interested in.

- e) We provide an environment that sparks curiosity and plan daily routines that limit interruptions so children can sustain play for longer periods of time.

Goal- Be less focused about the routine and more focused on the play.

Approach- Educators will adapt the schedule when possible to let children continue with play when they are very involved.

- f) Age appropriate learning environments are planned and set up with the children's development, interests and abilities in mind

Goal- With the children's interests in mind our educators will provide experiences for the children to further their knowledge and understanding of the topic.

Approach- Provide more open ended materials so they can explore and investigate.

- g) Our program will incorporate a wide variety of active experiences that take place both indoors and outdoors. The program is also set up in order to provide time for rest or quiet time. All of these times will take into consideration the needs of the individual child.

Goal- Be more responsive to the individual child's sense of self.

Approach- Our educators will strive to be aware of the children's interests and incorporate them into the child's environment

- h) All educators will strive to have a respectful and open relationship with the families. This is necessary in order to be able to exchange in conversations regarding their child's progress and any concerns the child care centre or parents may have. Any concerns or questions from the parents/guardians will be taken seriously and answered with respect and genuine interest.

Goal- Make an effort to become more familiar with the families.

Approach- Talk to parents about non private things happening in their home lives, light heartedly.

- i) At TayCare we work with community partners such as Lanark Early Integrations Program, Language Express, Infant and Child Development, Behaviour Development, Open Doors, and local schools/colleges. All of these agencies are welcomed into our programs to obtain or relay information about a particular child, with the parents signed consent. When a child shows signs of needing some assistance from these groups our educators will speak to the family and a referral made with the parents/guardians consent.

Goal- Help foster relationships with people of all ages in our community.

Approach- Arrange for Seniors from Lanark Lodge/PCCC to come and visit/read stories

- j) TayCare will make every effort to assist and support our Educators in their work towards their continuous professional learning.

Goal - We will work together as a team to achieve this.

Approach-Any necessary materials available to the Child Care Supervisor will be made available to the educators.

- k) The educators will review our goals and action plans and reflect on the impact on the children and families.
